Experience - 6 years

Senior Software Engineer | DAWAT-E-ISLAMIC INTERNATIONAL ORGANIZATION - Karachi, Pakistan | Jun 2022 - Present

I have extensive experience in **Backend Development** contributing their requirements in actionable project Like **ERP and Other Mangmant Projects**. I worked closely with my team members contributing my skills in **Laravel and CodeIgniter with JavaScript frameworks** has allowed me to develop complex and scalable **Restful APIs**. and also **Deployment on Server** is one of the focus key responsibilities.

Visiting Faculty (Part Time) | APTECH LEARNING EDUCATION SYSTEM - Karachi, Pakistan | Nov 2020 - Oct 2023

I am confident that my strong work ethic, excellent interpersonal skills, and ability to adapt quickly will allow me to excel as a career trainee at APTECH. I am eager to contribute positively to your team and help individuals discover their true potential.

Languages : Flutter - React.js - Vue.js - Django - Android Java

Lead Software Engineer | SQ SOFT TECHNOLOGIES - Karachi, Pakistan | Apr 2020 - May 2022

My role as team leader involved collaborating with clients to understand their requirements and translating those requirements into actionable project plans Like **CRM, PAYROLL, HOSPITAL, LABS, SCHOOL and Other Mangament Softwares**. I worked closely with my team members to assign tasks, contributing my skills in **HTML, CSS, JavaScript, Core PHP, Laravel and CodeIgniter**.

Associate Software Engineer | SAFCODE - Karachi, Pakistan | Aug 2019 - Feb 2020

Fortunately for accounting and human resources departments, there can handle a **PAYROLL** contributing my skills in **HTML, CSS, JavaScript, Core PHP**.
